

NCAA 2017 - PERFECT PLAYOFF PLAN

Too many Teams, Games, Weeks and Bowls

130 Teams, 12 or 13 Game Season over 15 weeks and 40 Bowls

The 2017 NCAA Division 1 Football Bowl Subdivision (FBS) is fundamentally flawed and cannot accomplish the outcome that its interested stake holders have demanded, an [Undisputed National Champion](#).

The FBS has too many things in its way like 130 Teams, 12 Regular Season Games, 40 Bowls over a total 20 weeks that confuse and dilute Major College Football and does not give us an Undisputed National Champion. They unfairly apply the rules and resources unequally to half their teams and conferences leaving them with a second class status and no chance to succeed in the competition for a Playoff invitation.

The FBS has failed in its mandate to pursue its core goals to provide an Undisputed National Champion and a [SAFE](#) College Football sports endeavor.

Student Safety

Academic Success

Fair treatment for all its members

Equal status for every Conference and Team

The FBS allows its Schools to play 106 meaningless [Patsy](#) Games and then relegates half its members to [Cupcake](#) status in the Group of Five Conferences excluding them from an equal opportunity and equal share of the massive revenue from the CFP and TV, wasting everybodys time and frustrating the students, alumni, fans, families and athletes that want any chance at achieving their expectations to inclusion.

There is a way to fix every flaw and achieve every goal, it is the [Perfect Playoff Plan](#) Reorganization of the FBS. This Plan reduces the excessive numbers while raising the [25 Group of Five Teams](#) that have shown their ability to compete at the highest level of College Football to the Equal Status they deserve in a New Football Only [Major College Football Division](#) with a 16 Team [National Championship Playoff](#).

90 Teams, 11 Game Season over 12 weeks, 16 Team Playoff, [27 Bowls](#)

[Back](#) to the College Football Playoff
